A self-motivated student who possesses coordination, language, and interpersonal skills as well as a down-to-earth personality. Seeking self-improvement and willing to explore to get a deeper grasp of the lively society.

EDUCATION

Hong Kong University of Science and Technology (2024 - Present)

Computer Engineering with an Extended Major in AI
(Year 2)

Tung Wah Group of Hospitals Lo Kon Ting Memorial College (2018 - 2024)

Secondary School Diploma
HKDSE overall score: 32

JOB EXPERIENCES

Large Model Product R&D Intern (July - August 2025)

Beijing SenseTime Technology Development Co. Ltd. (北京市商湯科技開發有限公司)

Achievements - Improved readability and understanding of the Chinese definitions of vocabularies and recommended development team to take all aspects of International Phonetic Alphabet (IPA) into account to improve accuracy and quality of pronunciation audio.

Learning - Learned how to finetune an LLM API model to automate and streamline tedious tasks and applied it to summarizing definitions and determining the appropriacy of vocabularies.

Job Content

- Milo Dictionary APP vocabulary optimization: Combined with adolescent learning scenarios, optimized large model-generated vocabulary, validated semantics, streamlined content, and improved the accuracy and age-appropriateness of definitions and example sentences.
- Special vocabulary review and correction: Conducted specialized reviews of large model-generated language entries, polysemous words, etc., taking into account teenagers' cognitive preferences to ensure vocabulary reliability.
- Image quality verification and optimization: Reviewed images generated by the large model for words, evaluated them from dimensions such as matching degree, age-appropriateness, clarity, etc., selected high-quality materials and standardized them to enhance learning outcomes.
- Audio correctness verification: Verified the accuracy and quality of pronunciation audio associated with dictionary entries, checking for correct phonetics, clarity, natural intonation, and age-appropriate delivery to support effective language learning for teenage users.

ACHIEVEMENTS

Vanderbilt University

Prompt Engineering for ChatGPT
Coursera Certificate · Jun 2025

IBM

Python for Data Science, AI & Development
Coursera Certificate · Jun 2025

Tung Wah Group of Hospitals Lo Kon Ting Memorial College (2018-2024)

- Best-All-Round Student Awardee (2019 – 2024, six consecutive years)
- Emcee of various school ceremonies
- Member of English Debate Team & IT Team

Hong Kong Computer Emergency Response Team Coordination Centre, Hong Kong Productivity Council (2022)

Hong Kong Cyber Security New Generation Generation Capture the Flag Challenge
Secondary School Participation Award
